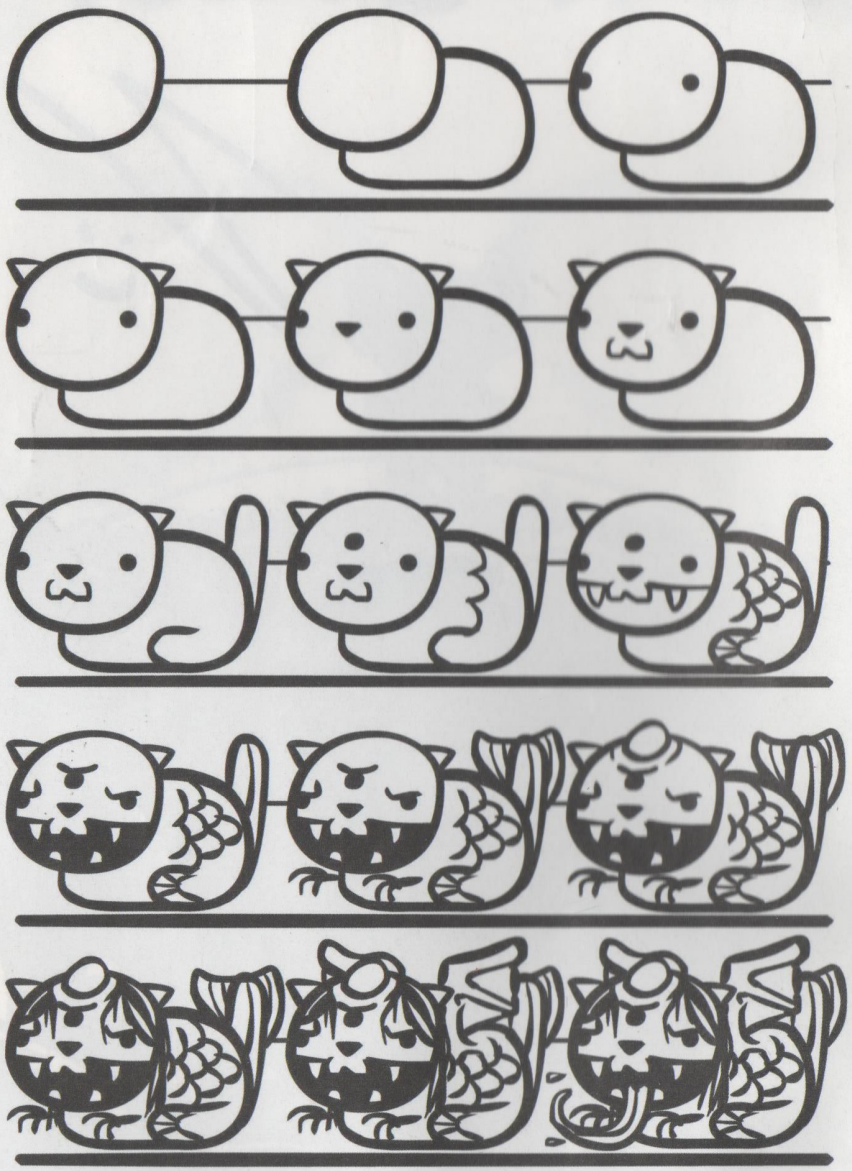
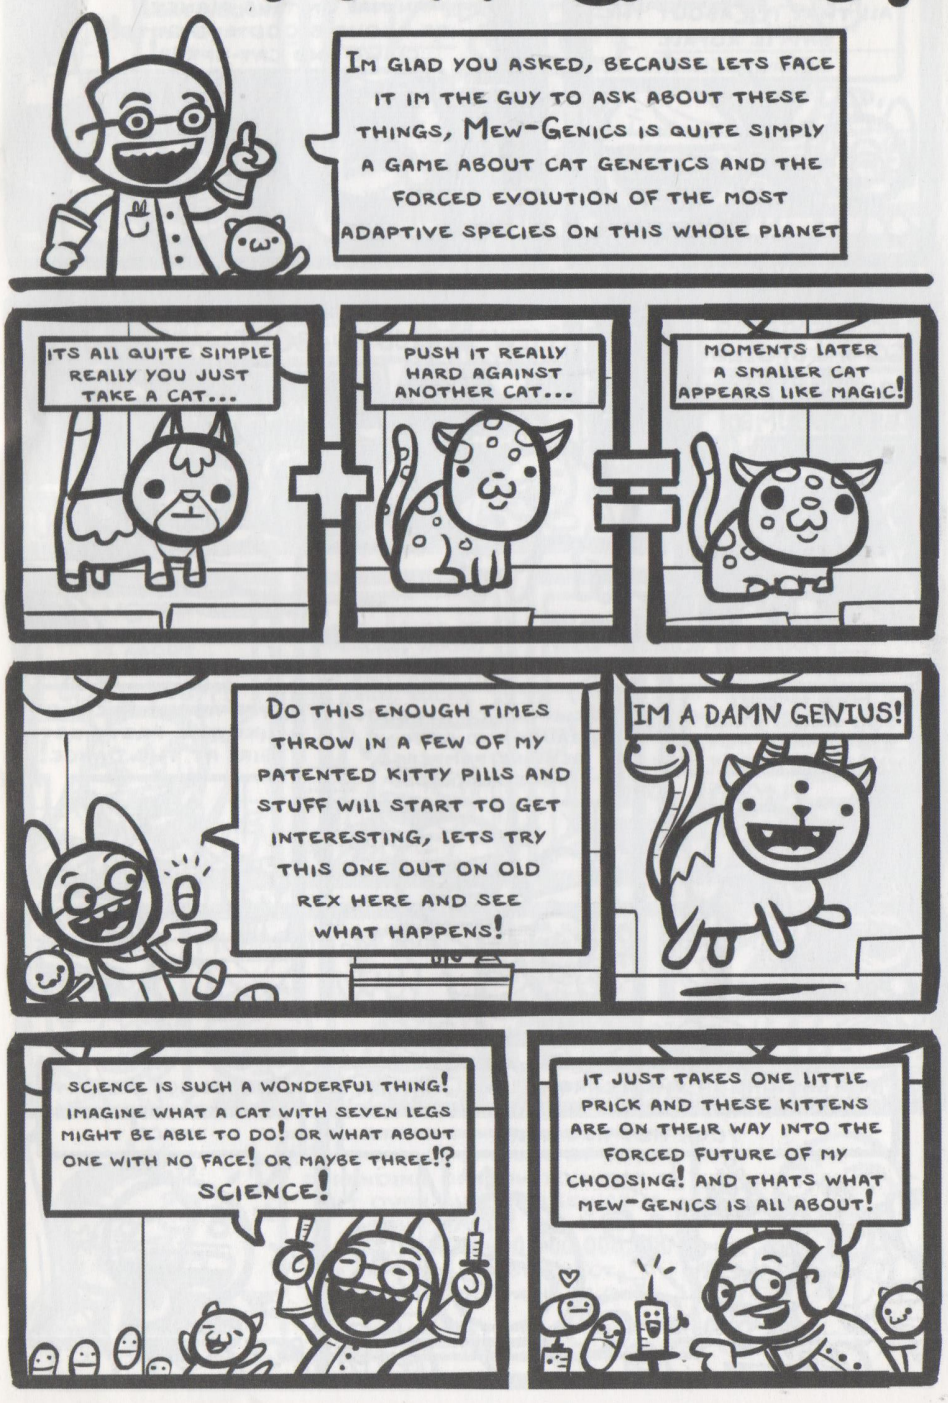
How to Draw a Cat



Mew-Genics is Copyright Team Meat 2013 Feel free to use the contents in anything that helps promote the game, whatever we dont care. Mewgenics.com

What is Mew-Genics?



Im glad you asked, because lets face it im the guy to ask about these things, Mew-Genics is quite simply a game about cat genetics and the forced evolution of the most adaptive species on this whole planet
its all quite simple really you just take a cat...
push it really hard against another cat...
moments later a smaller cat appears like magic!
Do this enough times throw in a few of my patented kitty pills and stuff will start to get interesting, lets try this one out on old rex here and see what happens!
im a damn genius!
science is such a wonderful thing! imagine what a cat with seven legs might be able to do! or what about one with no face! or maybe three!? science!
it just takes one little prick and these kittens are on their way into the forced future of my choosing! and thats what mew-genics is all about!

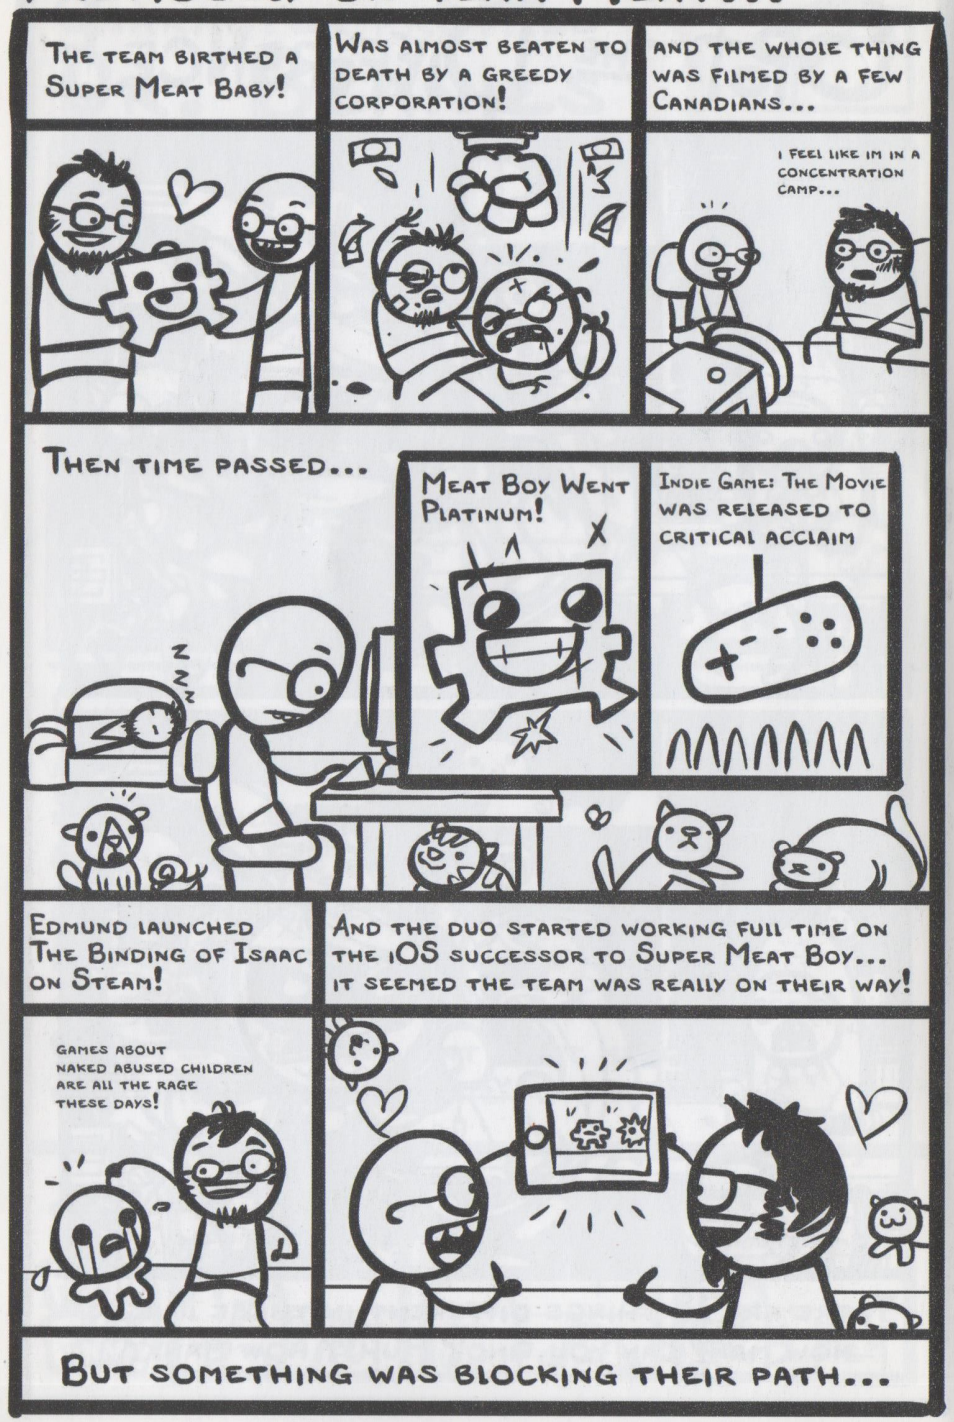
Previously on Team Meat...



The team birthed a Super Meat Baby!
Was almost beaten to death by a greedy corporation!
And the whole thing was filmed by a few Canadians...
I feel like im in a concentration camp...
Then time passed...
Meat Boy Went Platinum!
Indie Game: The Movie was released to critical acclaim
Edmund launched The Binding of Isaac on Steam!
And the duo started working full time on the iOS successor to Super Meat Boy... it seemed the team was really on their way!
Games about naked abused children are all the rage these days!
But something was blocking their path...
